## About company

BIG DOORS AND WINDOWS is a manufacturer with an international reach, offering windows and doors made of PVC, wood, aluminium and steel. We have been on the market since 1998. Production takes place in halls with state-of-the-art automated production lines, supported by qualified and experienced staff. We focus on development and innovation. We were the first in Europe to introduce to mass sale windows made in the V-Perfect shape welding technology.

Our offer is constantly expanding. Already today we are able to offer you several dozen different window and door systems. We also offer sliding systems, roller shutters, sectional garage and industrial doors, mosquito nets, fences and pergolas. As an addition to windows and doors, we offer covers. We produce internal and external roller blinds, facade blinds and shutters.

Everything is of the best quality, because we use only high-quality materials from leading European suppliers.

Years of experience allow us to accurately predict demand and respond to customer needs. Striving for a fresh perspective on evolving trends enables us to craft products that precisely meet all market demands. Multi-million investments in machinery, experience and multilingual staff make our export strength grow year by year. We are successfully expanding into European and non-European markets.

The quality of our products and the actions we take have gained the recognition of customers around the world. So far, we have created a powerful sales network, which we are constantly expanding.

# Despiro panels

Extremely durable and elegant proposals. They add prestige to both new investments and renovated buildings. The technologically advanced filling ensures increased performance parameters and allows the door to be used in projects co-financed from ecological funds.

# MasterLine 8 Despiro aluminium doors

The elegance and minimalism of the MasterLine 8 Despiro aluminium doors allow them to fit in with modern architectural trends. They are universal and perfectly complement traditional arrangements. The doors are made of sheet metal with a high degree of stiffness. Thanks to it, you can create sheet metal structures up to 1500 mm wide and 3000 mm high. They are available in the constantly expanded range of Despiro door panels, including the option of recessed handrail. This element can be highlighted in white (cold, warm or neutral) or blue.

**MASTER**LINE 8

\*maximum door height is 3000 mm;  
\*\*for selected designs of Despiro panels

Materials from which  
the door can be made:

- Aluminium (ALU)

Available colour options:

- RAL
- Decor wood-like

# MasterLine 8 Pivot aluminium door

The value of space is determined by the way it is used. Aluminium doors with pivot hinges can open inwards and outwards by shifting the axis of rotation. These versatile designs can extend from floor to ceiling. Pivot doors are designed especially for modern spaces where ergonomics is crucial. They will perfectly emphasize the avant-garde offices and present the smart character of the apartments.

**MASTERLINE 8**

\*standard shift by 301 mm, maximum by 600 mm (depending on the width of the door leaf)

\*\* DP4, DP5, DP10, DP11, DP16, DP22, DP23, DP25, DP35 - ask the Sales Department for more options

Materials from which  
the door can be made:

- Aluminium (ALU)

Available colour options:

- RAL
- Decor wood-like

## Door accessories

Accessories for the offered doors are not only a wide selection of handles and handrails in various shapes and colours. In addition to them, there are also additional technological solutions for hinges or espagnolette, as well as letterboxes or peepholes or devices controlling access to the building. The catalogue presents basic door accessories, the full offer is available in the sales department.

## VISORS

Visor with a diameter of 14 mm, satin chrome finish. Available for filling from 15 to 85 mm.
